Foreman Academy Track 2

This week-long series of classes is designed to provide line crew foremen with knowledge and skills outside the scope of fundamental linework. This will allow them to be more effective leaders and supervisors as well as help them understand their role and responsibilities of their job within the utility. Track 2 addresses team building, generations in the workplace, regulatory compliance, the impact of safety on insurance premiums and understanding and conducting performance appraisals.

To Whom It May Concern:

I am interested in hauling away all scrap metal from Power and Light's property.

I am willing to give 40% of the profit back to Power and Light. If interested, I would plan to clear everything out as-needed, or every 30 days.

Thank you,

John (Tony) Evans
