Re: Permission to Seek quotes for replacement Service Dump Truck

Mayor and Board Members,

I am requesting the board's authorization to seek quotes using the best pricing method available for a replacement service dump truck. This dump truck would replace our aging Chevy Silverado dump body truck. We will be working with Brady from Power and Light to optimize the specifications to meet our needs. Due to the excessive lead time to produce this type of equipment, I feel that it is in our best interest to pricing as soon as possible to place the order as early as possible in 2024 for anticipated delivery by the end of 2024.

I welcome any questions the Board may have on this request.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Charles Gill".

Charles Gill
Manager
Water Utility
