*Information Technology Department*

April 8, 2025 BOW Agenda

To: Board of Works and Safety  
Mayor Guy Titus

From: Rob Souchon – IT Manager

1. Request permission to discuss a City of Greenfield easement access trade with Ninestar Connect for fiber communication access. The City of Greenfield IT Department would like to have fiber communications run from the Park's Elmore Center to the Riley Park Maintenance Offices. Ninestar Connect has existing fiber in this area and is open to providing the City of Greenfield access to this fiber in return for access to a non-exclusive underground easement long the Pennsy Trail west of Meridian Road. The details of this agreement have not been decided. This request is only for approval to discussion such an agreement. The hope is to present this agreement to the Board of Works on April 22.
2. Request approval to purchase replacement routing equipment from Multilink Solutions Inc. for \$10,140.75 without tax. The quote submitted does include tax, but tax will not be applied at the time of purchase. The equipment will replace the existing routing equipment that exists in the City of Greenfield's network.
