Re: Chlorine supplies contractual election 4<sup>th</sup> Quarter - Informational

Mayor and Board Members,

As per our contract with Brenntag Mid-South INC., an email has been provided to the Water Utility that as of the date of the email notice as of 02 September 2025 Brenntag is staying at the current price per pound of Chlorine gas at \$1.19. Water Solutions did quote a lower price by \$0.01. Even though this price is less than the current vendor, the cost/benefit to the Water Utility is not enough to warrant the changeover process for a new vendor.

I am advising that the Utility will continue to order from Brenntag Mid-South, INC. for 3<sup>rd</sup> Quarter ending 30 September 2025. Prior to the end of the 3<sup>rd</sup> quarter of 2025, we will request updated pricing for service from all distributors and make the selection for service for 4<sup>th</sup> Quarter ending 31 December 2025. We will provide the confirmation letter at the time of selection for the 4th Quarter to ensure that all parties acknowledge the selection.

The following is the tabulation of the pricing as received:

Company	Cost per pound of chlorine	Pricing firm through
Brenntag Mid-South Inc.	\$ 1.19	30 September 2025
Water Solutions Unlimited	\$ 1.18	30 September 2025
Alexander Chemical Corp	\$ 1.433	30 September 2025

I am advising the Board that we continue with Brenntag Mid-South INC. for chlorine supply services for 3<sup>rd</sup> Quarter ending on 31 December 2025. I welcome any questions the Board may have on this course of action.

Respectfully Submitted,
