Board of Public Works & Safety
10 South State Street
Greenfield, IN 46140

Dear Members,

As a part of the Animal Management project, the City needs to purchase a few pieces of equipment to supply to the contractor for installation. A few of the long-lead time purchases are listed below:

1. Pet 550 Bio-Liquidator
2. Various commercial grade caging

The first piece of equipment, the Bio-Liquidator, will replace the need for an incinerator. This piece of equipment will dissolve organic material in an amino acid solution, leaving only bones to dispose of. The residual liquid will be able to be flushed into the sanitary sewer system for treatment. This is a sole-source piece of equipment, and the invoice is attached.

The second item is a variety of commercial grade caging, gates, runs, and cat condos. This total purchase is estimated to be around \$200,000, so Amanda and I will create specifications for the items to send out for public bid. We know of at least 2 vendors that work in this commercial grade equipment.

Therefore, I would like to ask permission to 1) order the sole-source Bio-Liquidator from Bio-Response Solutions in the amount of \$100,700.00, and 2) I would like to ask permission to advertise a formal bid request for the variety of cages needed for the Animal Management facility.

Sincerely,

A handwritten signature in black ink that reads "Jason Koch".

Jason Koch, PE
City Engineer
