

To Whom It May Concern,

Thank you for reviewing our appeal. Our request is to build a chain link fence on a drainage easement in the backyard of our home on 1425 Boots Trail, Greenfield, IN. We want to communicate that upon approval, we are willing to formally agree that the fence may be removed if access is needed to the easement. We understand that Greenfield is not liable for any damage done to the fence. We need to build a fence for our dogs and this easement restrictions cuts off 20ft of our yard. We are hopeful that a compromise can be reached on this issue. Again, we appreciate your consideration and thank you for reviewing our appeal.

Sincerely,

Gary Bean & Rachel Statom
