

GREENFIELD FIRE TERRITORY

Chief Brian D Lott

17 W. South ST, Greenfield IN

(317) 477-4430

Oct 12, 2021 BOW Agenda

To: Board of Works and Safety
Mayor Chuck Fewell

From: Chief Brian D Lott

I respectfully request board approval for the follow agenda item:

Go out to bid for a Preemption Traffic Control System

As you know the new State Road 9 road project has caused us some issues with traffic grid lock and increasing response times for our personnel to emergencies. Before we could just go down the center turn lane to get around traffic. Now that is not possible.

We have been looking at an Emergency Vehicle Preemption System for about a month now. We have been working with City Engineer Jason Koch and Josh Eisenhauer from EVP Engineering on the project. We met with 4 different companies that can do the project. We either want to do a GPS based or a cloud based system for Greenfield. We expect that bids will be returned by mid-November for the board to open and so we can review them by the first meeting in December.
