Local Government Debt

Prepared by the Department of Local Government Finance
September 21, 2012

Local units of government are required to submit annual debt reports to the Indiana Department of Local Government Finance (“Department”) under I.C. 5-1-18-9. Units are required to submit information on all bonds, leases, and other debt currently outstanding. This report provides an overview of debt filings for debt outstanding as of December 31, 2011.

Payments on local government indebtedness consume a significant portion of property taxes. For property taxes payable in 2012, 26% of the certified levies were attributable to debt service funds. Statewide, debt service levies represent \$1.6 billion of the \$6.3 billion in certified levies.

In 2011, the Department changed the prescribed method for debt reporting for local governments. Some of these prescribed changes are furthered in HEA 1072-2012. Local governments are now required to file debt reports and post bond sale information through the Indiana Gateway for Government Units (“Gateway”).

Gateway is a website that allows local units of government to submit information to certain state agencies electronically. Utilizing Gateway for debt report filing has streamlined reporting and increased transparency by creating a central library where local debt information is reported and stored. Previously, units were required to submit debt information to the Department on three separate occasions: immediately after a bond sale, annually on total debt outstanding, and annually in budget forms. These requirements have been replaced by the database of debt information that includes the amortization schedules of all outstanding debt. While this took considerable effort in the first year, in future years a detailed report for each debt will be reported only once – upon issuance – and the details will be stored in the database so that annual debt reports and worksheets can be almost fully automated. Additionally, all information is available to taxpayers online at <http://gateway.ifionline.org>.

Compliance with reporting requirements increased significantly in 2012. Of the more than 2,400 political subdivisions in Indiana, 93.7% reported debt information to the Department. In 2011, only 51% of units reported this information to the Department. This streamlined process created more accountability and greatly increased the percentage of units who submitted a report, as displayed in the following chart.

Table 1: Percentage of Political Subdivisions Reporting Indebtedness Information by Unit Type

Unit Type	2011	2012
County	95.7%	96.7%
Township	26.5%	94.3%
City/Town	56.5%	89.4%
School	86.3%	99.7%
Library	89.5%	95.8%
Special	43.0%	93.9%
Conservancy	34.2%	82.7%

Reporting debt information through Gateway allowed for a more comprehensive overview of debt at a local level. For the first time, the Department can report on the total amount of principal and interest local governments anticipate paying. The Local Government Debt Report (“Report”) separates debt into principal, interest, lease payments, and expected credits from the federal government, which subsidize projects that qualify for federal aid. This information was drawn from the amortization schedules as reported by local governments. The Department summed all remaining payments outstanding as of December 31, 2011, to calculate the total.

Table 2: Debt Summary by Unit Type

Unit Type	Principal Outstanding	Interest Outstanding	Lease Payments Outstanding	Federal Credits	Total Current Obligations Outstanding
County	770,224,167	228,418,060	766,173,571	0	1,764,815,798
Township	60,941,995	9,446,910	77,492,777	0	147,881,682
City/Town	4,521,955,282	1,785,766,861	1,854,409,864	88,725,387	8,073,406,620
School	1,916,124,970	561,910,819	14,587,417,120	172,376,093	16,893,076,816
Library	340,309,125	69,323,117	380,174,604	0	789,806,846
Special	3,303,970,103	2,233,328,364	1,084,740,275	70,431,732	6,551,607,010
Conservancy	112,243,044	52,570,626	0	0	164,813,670
All Units	11,025,768,685	4,940,764,757	18,750,408,212	331,533,212	34,385,408,442

The Department required units to report lease rentals that apply to real property (buildings and other permanent structures) or any equipment in a lease-to-own arrangement (fire trucks). Short-term leases on equipment such as copiers or vehicles were not required for the report. The vast majority of the \$18.8 billion in lease payments represents bonds that are issued by a building corporation created to issue the debt. The political subdivision then makes lease payments to the building corporation in a lease-to-own arrangement. These arrangements are the main mechanism for financing construction for schools.

The Department does not take a position on what portion of each political subdivision's debt is subject to statutory debt limits, as well as the lawfulness of any debt incurred. Additionally, the Department requires units to complete debt for all sponsored entities. Such units, like building corporations, redevelopment commissions, and utilities, are separate entities for the purpose of the constitutional debt limit. In a unit's debt filing, it reports whether the debt is subject to the constitutional debt limit. This information, as well as a detailed list of indebtedness incurred by each reporting political subdivision with the amortization schedule for each debt, is available on the Gateway public information website.

Report Methodology

The indebtedness information reported covers only those debt filings that have been officially submitted by the unit. The data set used in this report is a compilation of data as of 4:00 p.m. September 14, 2012. Debt filings change daily and are updated on the Gateway public website instantaneously.

The Status of Debt column in the report displays the status of a unit's debt filings. Units that have submitted all of their indebtedness information are listed with a blank status and have no reports in process. Units that have reported and confirmed having no debt to the Department are noted as "No debt." Units that did not submit or report their indebtedness information as of September 14 are included in the report but are listed as "Did not report."

An asterisk next to a unit's status represents those units whose debt information is still in process. These units may have entered some debt into Gateway but have not officially submitted all of the reports they have begun. The numbers listed for these units summarize debt in a submitted status as of September 14. Since there are other reports in process, this might not be a total representation of that unit's indebtedness. Updates to these units' debt filings are available at the Gateway public information website at <http://gateway.ifionline.org>.

The Department calculated a per capita level of debt using census data of the total population of each taxing unit. All census data were drawn from the 2010 United States Census. As census data are not available for some Special Districts and Conservancy Districts, per capita amounts were not reported for these taxing units. Although per capita levels are a useful comparison, there are certain units that provide services outside their legal boundaries through inter-local agreements or statutory authority. Therefore, the per capita calculation may not entirely reflect the total population the unit serves.
