Re: Headworks Grit Removal System Motor

Mayor and Board Members,

During one of the flood-out events in March, the motor for the Pista Grit system was damaged. We are still working to get some more information on the lead time and cost for either a repair or replacement. We have received a quote to repair the motor from Brehob for \$7,983.00 plus freight, but they are having difficulty locating one of the parts needed for the repair. We have also received a quote from Smith and Loveless, the original equipment manufacturer, for \$10,635.00 plus freight, but it had a 24-26 week lead time.

Since we are still waiting to hear if Brehob can get the motor fixed, I would like to get approval for a not-to-exceed amount of \$11,500.00 in case we end up having to order a replacement motor from Smith and Loveless. The quotes from both vendors have been included for your review. Please let me know if you have any questions or need any other information at this time.

Best Regards,

Nicholas Dezelan, CHMM, ASP
